

# DTE Energy rebates for electric customers

Incentive amounts have changed!

Please see the chart below for all electric customer incentives.\*

| DTE Electric Customers                  | Good                    | Better                         | Best  |
|---|-------------------------|--------------------------------|---|
| Central Air Conditioner                 | <b>\$100</b><br>15 SEER | <b>\$200-300</b><br>16-17 SEER | <b>\$500</b><br>18 SEER or higher   |
| Thermostat                              |                         |                                | <b>\$50</b><br>Wi-Fi enabled  |
| Central Air Conditioner Tune-Up         |                         |                                | <b>\$75</b><br>diagnostic tune-up   |
| Air Source Heat Pumps**                 |                         |                                | <b>\$750</b><br>18+ SEER<br>14+ EER<br>9.7+ HSPF<br>All three must be met |
| Ground Source Heat Pumps**              |                         |                                | <b>\$800</b><br>17 EER or higher  |
| Ductless Mini-Split Heat Pump Systems** |                         |                                | <b>\$1,000</b><br>18+ SEER or higher                                      |

\*Valid for installation dates from June 4, 2021, to Dec. 31, 2021. Funds for incentives are limited and available on a first-come, first-served basis. Good/Better/Best options are defined based on equipment efficiency levels. Customers can upgrade more than one piece of equipment with different incentive levels.

\*\*Air source and ground source heat pumps are eligible only for customers who are replacing an existing heat pump system and use electricity as the primary heating fuel. All air source heat pumps must meet the minimum requirement levels of: 18 SEER, 14 EER, 9.7 HSPF to be eligible for a rebate. Ductless mini-split heat pumps are eligible for customers who are replacing a heat pump or electric resistance heating.
