

Residential Insulation and Windows (INWIN) Application

Thank you for participating in the DTE Energy Insulation and Windows Program.

To reduce rebate processing time, apply online at mydterebates.com. If you're unable to apply online, complete the checklist below before submitting your application. Incomplete or missing information could delay processing of your application.

Application Checklist

- Did you include your proof of purchase (invoice or material receipts) documenting **all** items for which you want a rebate?

For insulation:

(Please be sure the following is indicated on your proof of purchase or on the application itself.)

- Include the square footage of the roof attic, above-grade wall, basement, or crawl space. Measure and multiply the length by the width of the installation. *See Figure 1 - Square Feet Calculation.* (For the rim joist, measure and add the length and width to get linear feet.)
- Include the R-value of insulation installed. R-value is a measure of resistance to heat flow through a given thickness of a material. If the R-value is unknown, please indicate how many inches and what type of insulation was installed.

For windows or doors:

- Include the number of windows or doors installed.

-and-

- Include the U-factor for each window or door for which you are applying for a rebate. The U-factor may be found on the National Fenestration Rating Council (NFRC) sticker or product literature/description from the contractor or manufacturer. *See Figure 2 - NFRC Label.* (U-factor must be less than or equal to 0.30 or may include those rated as ENERGY STAR® qualified for the Northern Climate Zone.)

NOTE: Failing to sign the application or omitting sections may delay application processing. Rebate funds are limited and subject to change and may be canceled at any time. Careful application submission will help ensure both rebate availability and quick application processing. We encourage you to apply online at mydterebates.com to reduce rebate processing time and receive immediate notifications about missing information.

Mail completed, signed applications along with proof of purchase documents to:

Incentive Processing Center
980 Beaver Creek Dr.
Martinsville, VA 24112

Rebate Certification (This application is not complete until all boxes are verified and application is signed.)

Customer certification: I certify that all items have been satisfactorily completed in my home by the assessor/contractor(s) of my choice. I further certify that all statements made in this application are true and correct.

- I have reviewed and agree to comply with the terms and conditions associated with this application.
- I agree to the rebate reassignment as stated below.
- I have attached copies of all applicable supporting documents (itemized receipts/invoices with contact information and window certifications) for work that has been completed and paid for, making me eligible for the listed rebates.
- I have read and agree to all of the terms and conditions set forth on page 4 of this application.

Rebate Application Notes

(These numbers correspond with the notes on the previous page.)

1. Electric heat includes heat pumps and electric resistance heating systems.
2. Attic/ceiling insulation requires a starting "effective" value of less than or equal to R30 (OR less than or equal to 8" of insulation). "Effective" R-value considers framing members in the overall existing attic/ceiling R-value. The square footage of attic insulation is not allowed to exceed the above-grade square footage of the premise by 20% or more. A minimum of R19 or 6" of insulation must be added. Must install a minimum of 500 sq. ft.
3. Rim/band joist insulation – to qualify for this rebate, the band joist must be insulated with spray foam insulation with a minimum of R10 value OR all joists must be air sealed with caulk or spray foam and insulated with a minimum of R10 value. Minimum area must be 50 linear ft. OR entire available band joist area (whichever is smaller).
4. Floor and crawl space insulation requires lapped and sealed vapor barrier on unfinished crawl space floor if deficient or absent.
5. Window replacement rebates are not available for reflective attic barriers, storm doors, glass block doors, skylights, house wrap, and solid-core doors with glass lites smaller than 75% of total door area. Windows must be rated as ENERGY STAR qualified for Northern Climate Zone or National Fenestration Rating Council (NFRC) with a U-factor of 0.30 or less. Please see Figure 2. To calculate window square feet, multiply the length (feet) of the window by the width (feet) of window (Figure 1).

These terms and conditions are effective and valid from Jan. 1, 2023, until further notice. The existence of the program and all program details, rebate levels, terms, and conditions are subject to change or cancellation without prior notice at DTE Energy's sole discretion. To receive rebates, eligible DTE residential customers applying for a rebate through the INWIN Program, hereinafter referred to as "Participants," must have a valid legal signature on the rebate certification.

Participants are advised to retain a copy of this application and accompanying documentation submitted to DTE Energy under the INWIN Program. DTE Energy will not be responsible for lost documentation pertaining to this application request. The application with required proof of purchase documents must be received within 30 days of installation completion. Only one rebate is available for each qualifying measure at address where installed. Incentive amounts are valid through Dec. 31, 2023, but can change or be canceled without notice. Rebates cannot exceed the value of the product purchased. Please call **866.796.0512** or visit dteenergy.com/insulationwindows for the most up-to-date program details and application questions.

Terms and Conditions

ELIGIBILITY: This offer is valid for DTE Energy residential natural gas and/or electric customers (active account at time of installation) applying only through the DTE Energy Insulation and Windows Program. Participants must be DTE Energy electric and/or gas customers for whom DTE provides the primary heat source. DTE electric-only customers must have all-electric heat. Premise eligibility is limited to single-family homes. Single-family homes are defined as 2 or fewer connected units. Each unit must be individually metered for natural gas and electric and each unit must have its own heating, cooling, and water heating equipment. This offer is not valid for new additions, garages, enclosed porches, new construction homes, multiple rental units managed or owned by a third party, mobile homes, or commercial properties, unless otherwise approved by DTE Energy. Rebate applications must be submitted by the account holder or the participating contractor who performed the installation. Only one rebate is available per customer for each qualifying measure at address where installed. For other programs and eligible incentives, please visit dteenergy.com/saveenergy.

APPROVAL, VERIFICATION, AND INSPECTION: Prior to any payment of incentives, DTE Energy reserves the right to verify all installed energy-saving measures and sales transactions. Participant/contractor will verify that the installed energy-saving measures meet all applicable building codes; zoning laws; local, state, and federal requirements; and other relevant requirements, including any applicable permits as required by code/law. Participant's home also may be selected for a quality control post-installation inspection by the Program Implementer, ICF. No warranty is implied by this inspection.

PROOF OF PURCHASE: Participants may scan and upload, email, or mail their materials in support of their applications. The invoice must include a detailed scope of work indicating type of material installed, quantity, home location, and date. Invoices for windows must show size or quantity of windows installed and U-factor rated as ENERGY STAR qualified for Northern Climate Zone and/or National Fenestration Rating Council with a U-factor of 0.30 or less (see Figure 2). Customer receipts must show product name, quantity, place, price, and date of purchase. See the application for specific product and installation requirements.

SCANNED DOCUMENTS: Scanned or photographed original documents transmitted to the Program Implementer, ICF, as an attachment to the electronic rebate application will be the same as delivery of the original signed documents. At the request of DTE Energy, the participant must provide the original document to confirm documents sent with a scanned signature.

PAYMENT: Please allow six to eight weeks for payment. Payment processing may take longer if information is missing on the application. Rebates are calculated based on the date of insulation and/or window installation.

TAX LIABILITY: DTE Energy will not be responsible for any tax liability that may be imposed on the Participant as a result of the payment of incentives. Please contact your tax adviser for more information.

INFORMATION RELEASE: Participant agrees that DTE Energy may collect, use, store, and share Participant's customer information as well as any of Participant's customer energy usage data, provided it is in compliance with applicable regulations. Accordingly, Participant shall release, hold harmless, and discharge DTE Energy, its agents, officers, directors, shareholders, employees, contractors, affiliates, and successors in interest, and assigns from and against any and all claims of whatever nature arising in connection with or associated with the collection, use, storage, and sharing of Participant's customer information.

RELEASE/INDEMNIFICATION: Payment of rebates under the program and/or evaluation of applications for rebates shall not deem DTE or any of its affiliates, employees, or agents ("DTE Parties") to be responsible for any work completed in connection herewith. Participant fully releases DTE Parties from any and all claims it may have against DTE Parties in connection with this application, the rebates, or the work performed in connection with them. In addition, Participant agrees to defend, indemnify, and hold DTE Parties harmless from and against any and all claims, losses, demands, or lawsuits by any third parties acting in connection with this application, the payment or nonpayment of rebates, or any work performed in connection with them.

DISCLAIMER/WARRANTY: None of the DTE Parties guarantees the energy savings under this program nor makes any warranties associated with the measures eligible for rebates under this program. DTE has no obligations regarding, and does not endorse, guarantee, or warrant any claims, promises, work, or equipment made, performed, or furnished by any contractor or equipment vendor that sells or installs any energy efficiency measure under this program. DTE makes no warranties or representations of any kind, whether statutory, expressed, or implied, including without limitations, warranties of merchantability or fitness for a particular purpose regarding any product or service rendered by any person under this program. All such products and services shall be accepted by Participant "AS IS" with respect to DTE. DTE has no obligation to make any rebate described herein. In no event shall DTE's implementation contractor be liable for any incidental or consequential damages.

LIMITATION OF LIABILITY: DTE Energy's liability is limited to paying the incentive specified. DTE Energy is not liable to the contractor or any customer, whether in contract, tort (including negligence), strict liability, warranty, or otherwise for damages connected with or resulting from participation in these programs. DTE Energy reserves the right to not pay this incentive if the application and all required additional information are not complete and accurate or if funds are not available.

WARRANTIES: DTE Energy DOES NOT WARRANT THE PERFORMANCE OF MEASURES OR INSTALLED EQUIPMENT EXPRESSLY OR IMPLICITLY. DTE Energy does not endorse any particular manufacturer, product, system design, claim, or contractor in promoting this program. DTE Energy makes no warranties or representations of any kind, whether statutory, expressed, or implied, including without limitations, warranties of merchantability, or fitness for a particular purpose regarding any energy efficiency measure or window provided by a manufacturer or vendor. Contact the manufacturer for details regarding measure or window performance and warranties.

PROPERTY RIGHTS: Participant represents that he/she has the right to complete and/or install the energy-saving measures on the property on which those measures are completed and/or installed and that any necessary landlord's consent has been obtained.

PARTICIPANT'S CERTIFICATION: Participant certifies that he/she has purchased and has installed the eligible improvement measures and equipment listed in the rebate application at the defined location. Participant agrees that all information is true and that he/she has conformed to all program requirements listed.
