

There's never been a better time to maximize your savings

Until Dec. 31, **DTE Energy has increased rebates on multiple HVAC upgrades up to \$1,000.** Choose how you improve your home comfort with furnace, air conditioning, heat pump water heater and whole system upgrades that will help you save more on your energy bills.

	Equipment Type	Previous	New
Furnace[†]	96% AFUE	\$200	\$300
	97%+ AFUE	\$400	\$650
Air Conditioning[‡]	17+ SEER2 AC	\$300	\$550
Heat Pump Water Heater[§]		\$750	\$1,000
Whole System[¶]	Additional \$500 bonus for having a qualifying furnace, AC and thermostat installed on the same premise during the same installation appointment.		

[†]DTE gas and combo customers who heat their homes with DTE natural gas and are replacing an existing furnace only. [‡]DTE electric customers replacing existing AC only. [§]DTE electric customers who currently heat their water with electricity and are replacing an existing electric water-heating system only. [¶]DTE combination (electric and gas) customers only.

These increased rebates will only be available for a limited time, so make sure to schedule an appointment with a participating contractor with installation occurring between Oct. 1 and Dec. 31, 2024.

For program eligibility and to learn more about energy-efficient HVAC systems, ask your participating contractor or visit dteenergy.com/hvac

*Up to \$1,000 in heating and cooling rebates. Installation must occur between Oct. 1 and Dec. 31, 2024, and application received by Jan. 10, 2025. Funds for incentives are limited and available on a first-come, first-served basis. Customers can apply for one rebate per measure category. Premise eligibility is limited to single-family homes. Single family homes are defined as two or less connected units. Each unit must be individually metered for natural gas and electric, and each unit must have its own heating, cooling and water-heating equipment. New construction and multi-family homes do not qualify.
