

How Performing Diagnostic Tune-Ups Can Help Grow Your Business

Our recent heating comprehensive tune-up training webinars, hosted by the DTE Energy and Consumers Energy Residential Heating, Cooling and Water Heating (HVAC) programs are now available on demand. As your ally in promoting energy savings and growing your business, DTE and Consumers Energy is offering a rebate to residential customers who have a participating contractor perform comprehensive tune-up services for their heating or cooling equipment. Furnace, boiler and central air conditioner tune-up rebates are designed to make these services more affordable for customers—which means more business for you.

The webinar is now available on-demand for you and your team to watch at your convenience. The on-demand recordings are a great opportunity to train field technicians, service managers and administrative staff on the benefits of comprehensive tune-ups. To view our on-demand webinar recording, please visit the link below.
