

How Performing Diagnostic Tune-Ups Can Help Grow Your Business

Missed our recent heating comprehensive tune-up training webinar? The recording is now available on demand.

Tune-up rebates offered through the DTE Energy Residential Heating, Cooling and Water Heating (HVAC) Programs help make furnace, boiler and central air conditioner tune-ups more affordable for customers. For participating contractors, these rebates can help create more sales opportunities, strengthen customer relationships and support business growth.

Share the recording with field technicians, service managers and administrative staff to help your team understand program requirements, customer benefits and rebate participation. Watch the webinar at your convenience using the link below.
